As part of its Conversations 2012/2013 series, TrépanierBaer is pleased to present new works by Ron Moppett in the Viewing Room. Moppett's work will be shown concurrently with the exhibition DaveandJenn: The Hinterland Will Find You.

In 2010 Ron Moppett worked with DaveandJenn to produce a large scale installation piece titled MAGPIE. This major piece premiered at the Southern Alberta Art Gallery in Lethbridge for the exhibition On Your Marks. The collaboration was a natural one as their practices intersect: they are all painters who also work with sculpture. TrépanierBaer is pleased to continue the conversation between these artists and hopes that you will take advantage of this unique opportunity.

We look forward to seeing you.
